Subject: Posey Solar Project

Joyce/Bill,

Good afternoon.

I have a client with a solar project in Posey County, Indiana. The county requires that the developer notifies NOAA of the project. Does the NTIA process consider solar projects? Is there another process we need to follow? Does the NWS have any radar concerns with solar projects?

Attached for your information is a kmz of the boundaries for the Posey Solar Project. Our review shows that this project is 30-40 km to the south of the Evansville WSR-88D.

I appreciate your help regarding this matter.

If you have any questions or concerns, please let me know.

Regards,

Geoff Blackman
